

# **Orem City Drill**

## **Thursday, September 17**

### **6:00 p.m.**

This is a city wide drill to test and practice our channels of communication and preparedness in a disaster.

- Residents should prepare to report to their Block Captain at their assigned block staging area at 6:00 p.m. (Block Captains will make a loud noise at 6:00 p.m. to let everyone know the drill has begun - how fun!)
- If you will not be home for the drill, please let your Block Captain know ahead of time so you can be accounted for.
- We challenge everyone to use this Thursday evening to review and practice their individual family and neighborhood disaster preparedness plans.

Every resident's help is needed to make the drill a success, and help prepare our communities for future emergencies.
